

Predictive Analytics for Healthier Communities.

Dr. Ruben Amarasingham, MD, MBA, President & CEO of PCCI

Synthesis, Prediction & Application.

1-24

1-24

Cardio-Pulmonary Arrest
Sepsis Mortality
Safety Event
Surgical Complication

30

Days

Readmissions
CHF
HIV
Cirrhosis
All Cause: AMI COPD PNA

90

Days

Short-Term Diabetic
Complications
Chronic Kidney Disease
Preventable DM Admissions

1-5

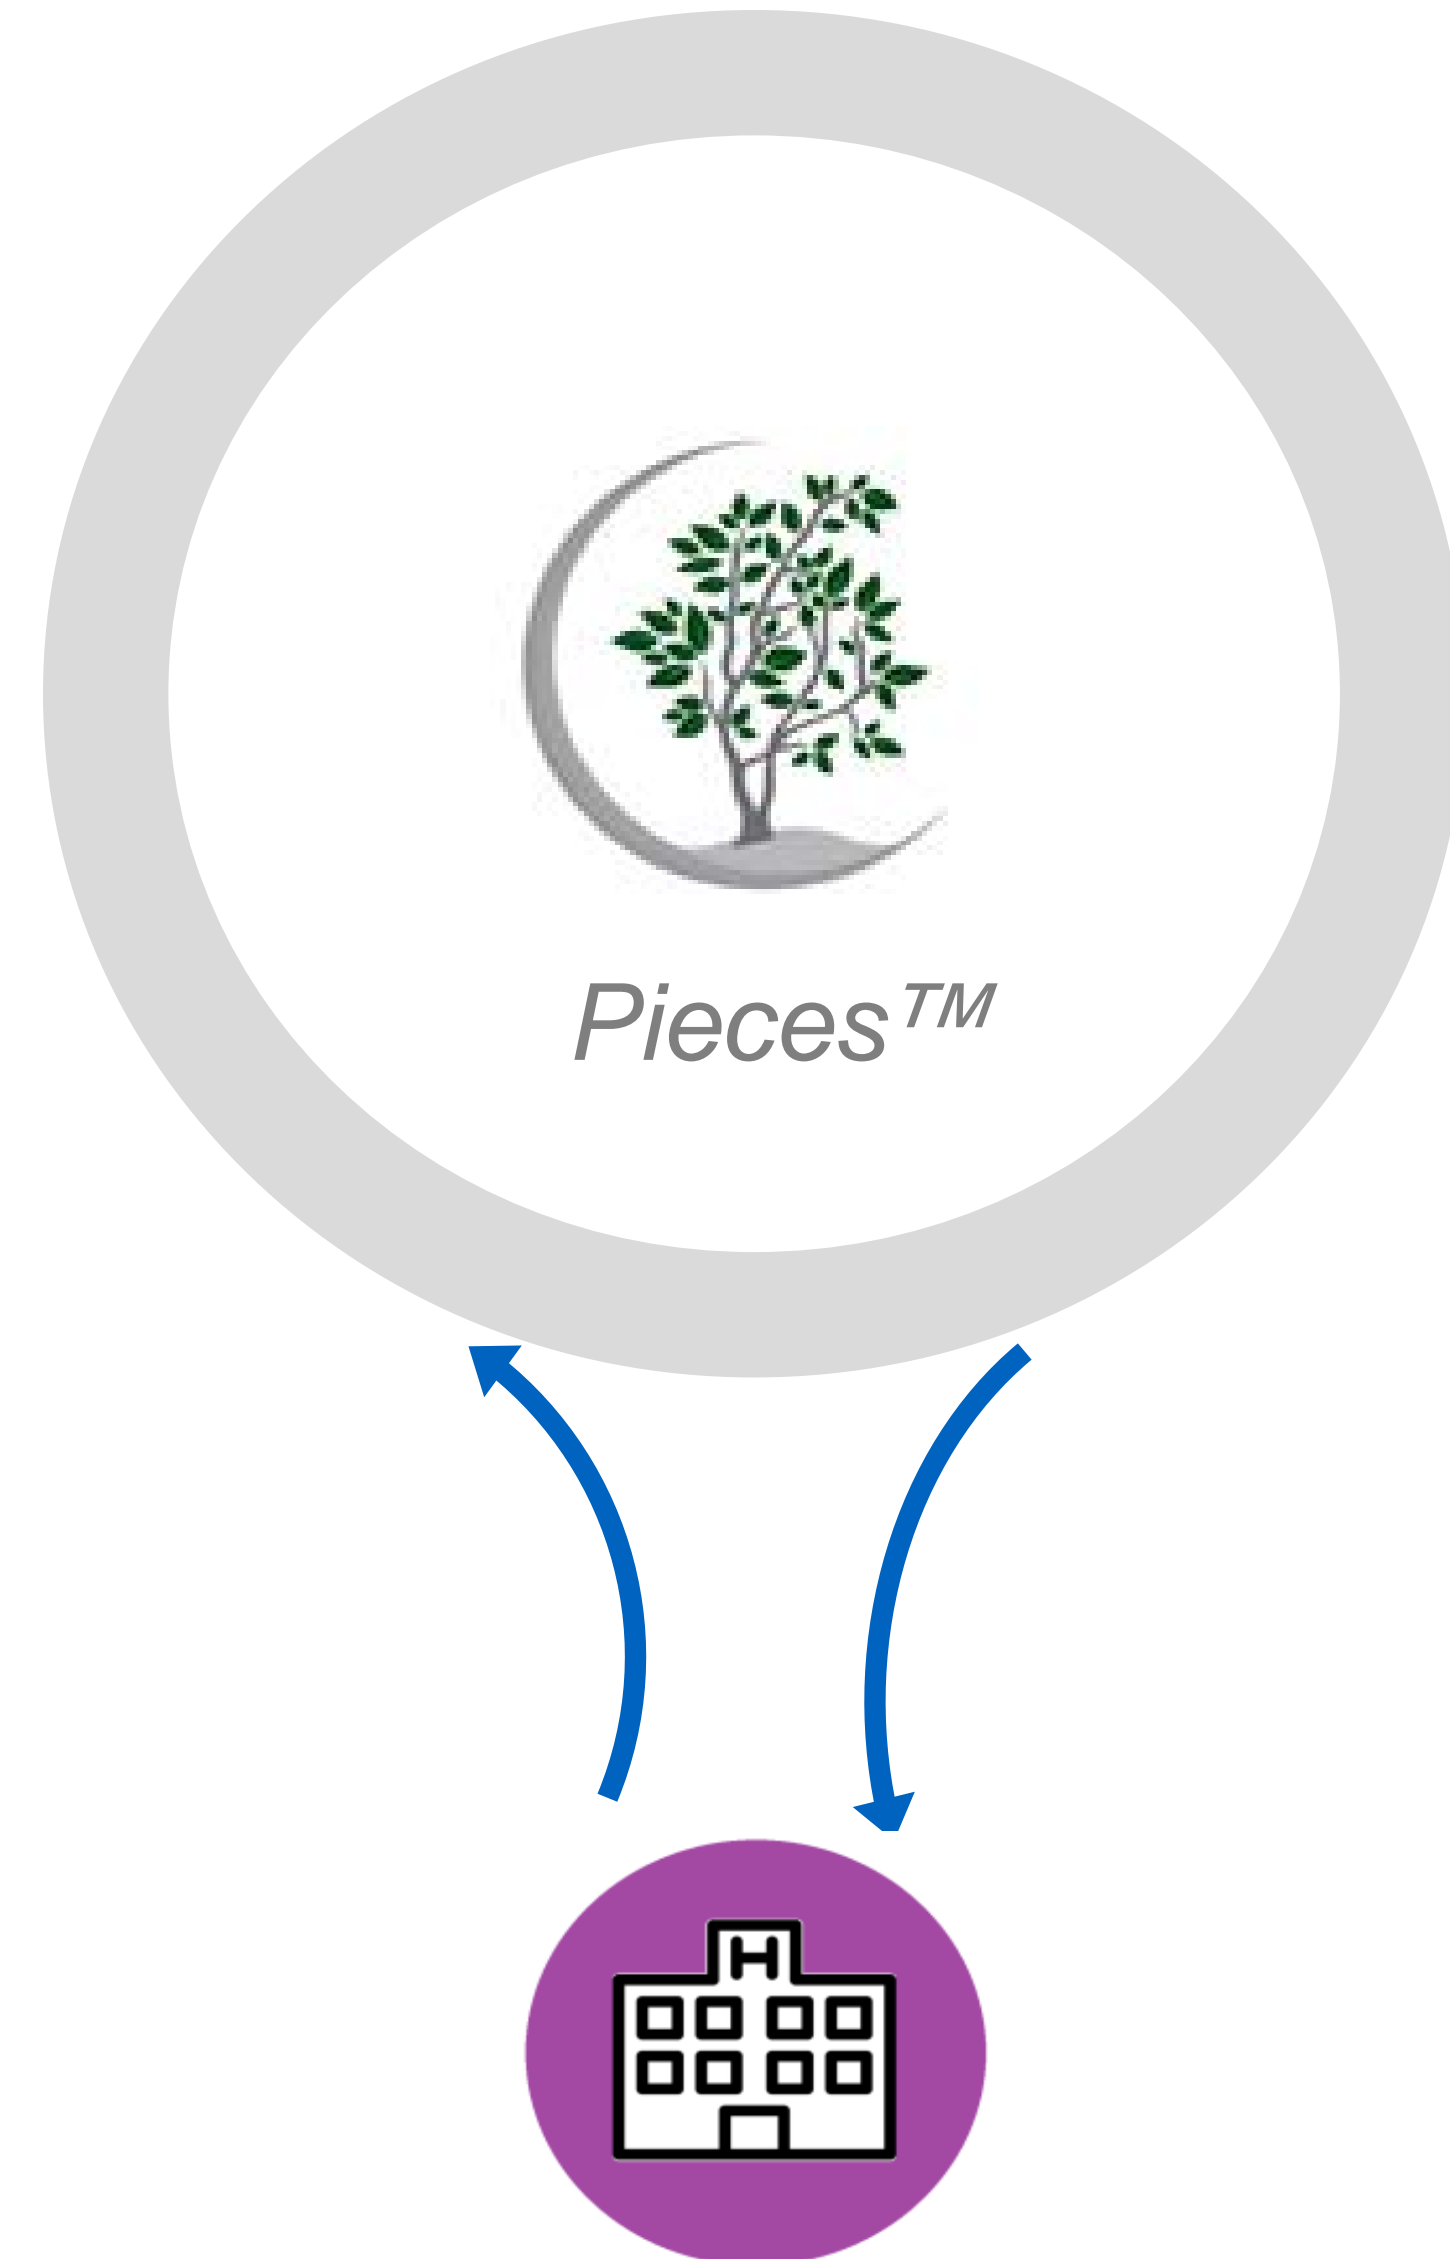

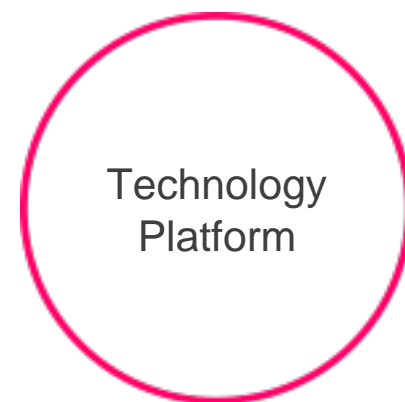

Years

Chronic Kidney Disease
Oncology
Ambulatory ICU

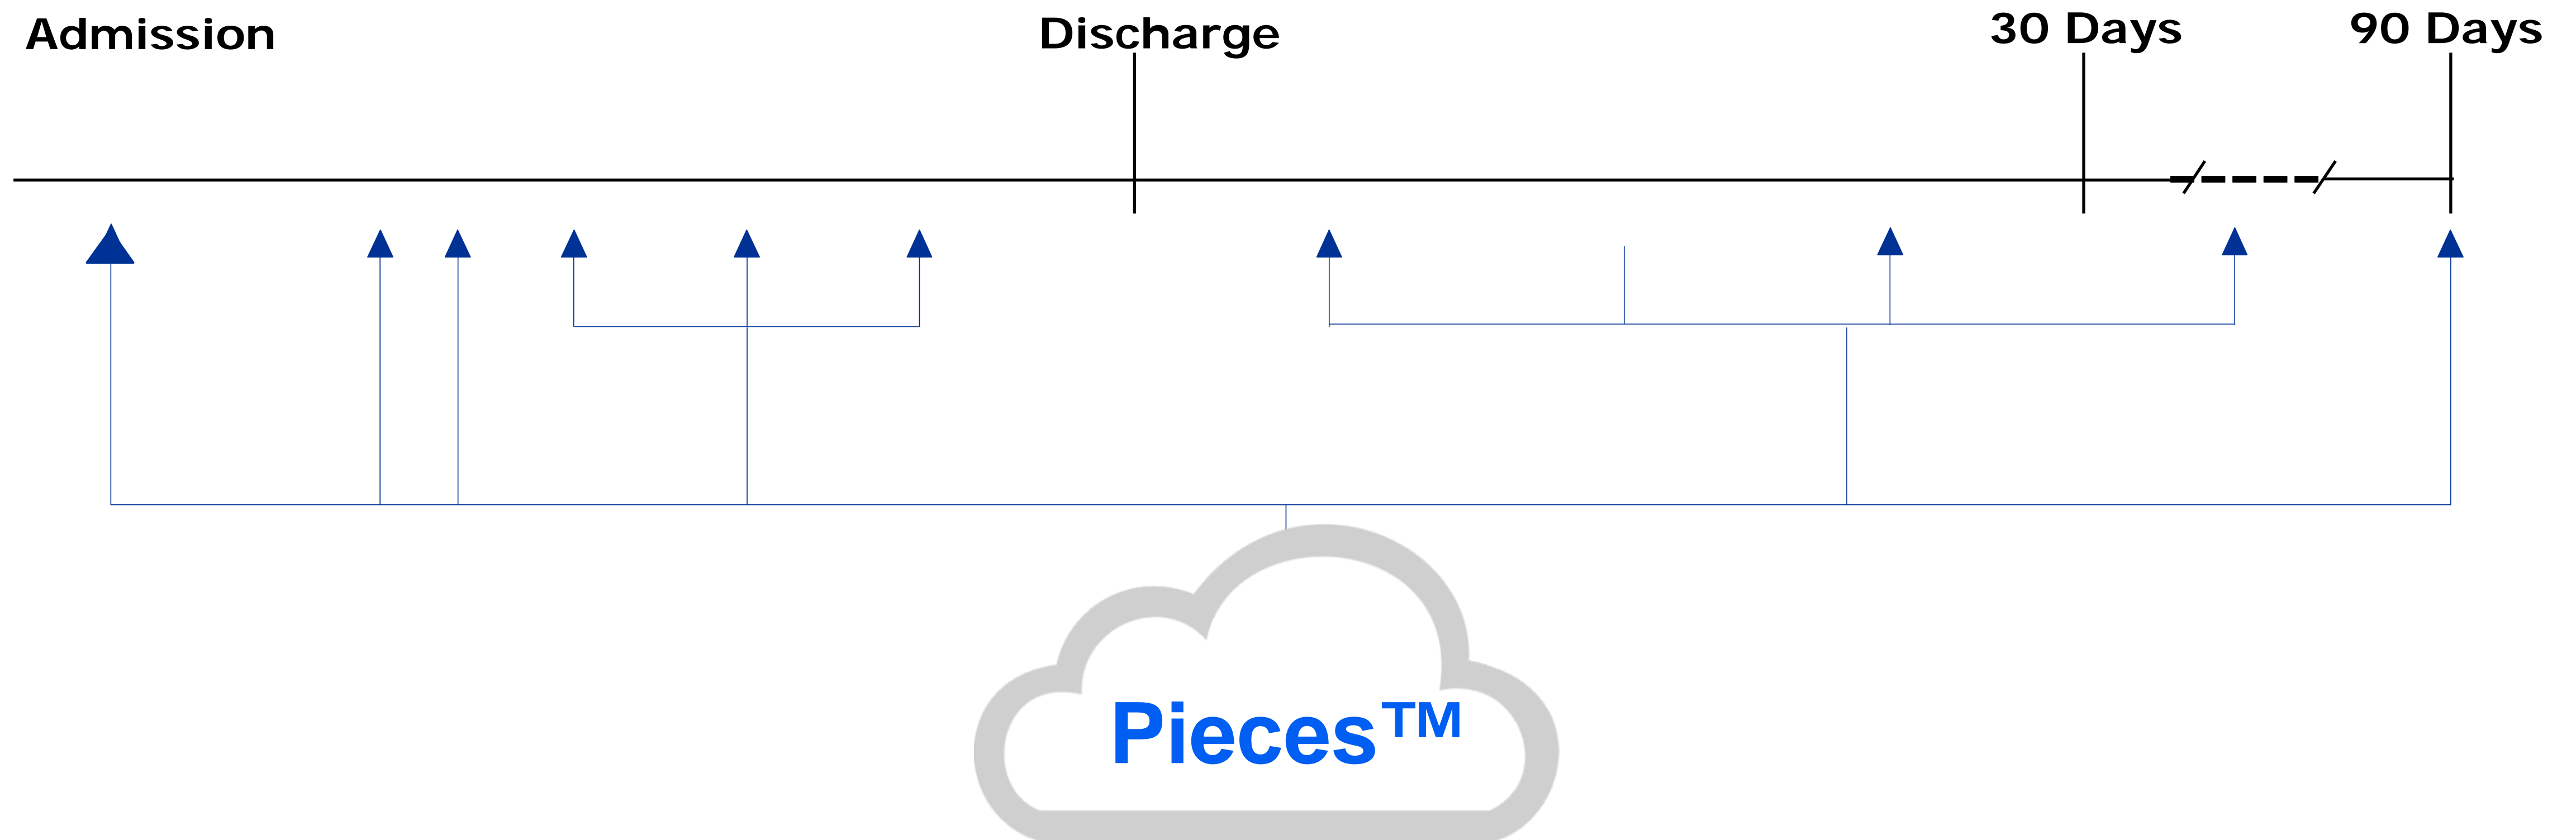

A historical focus on predictive analytics for health systems.

Core Strengths

Real-time evidence-based decision making at the point of care.

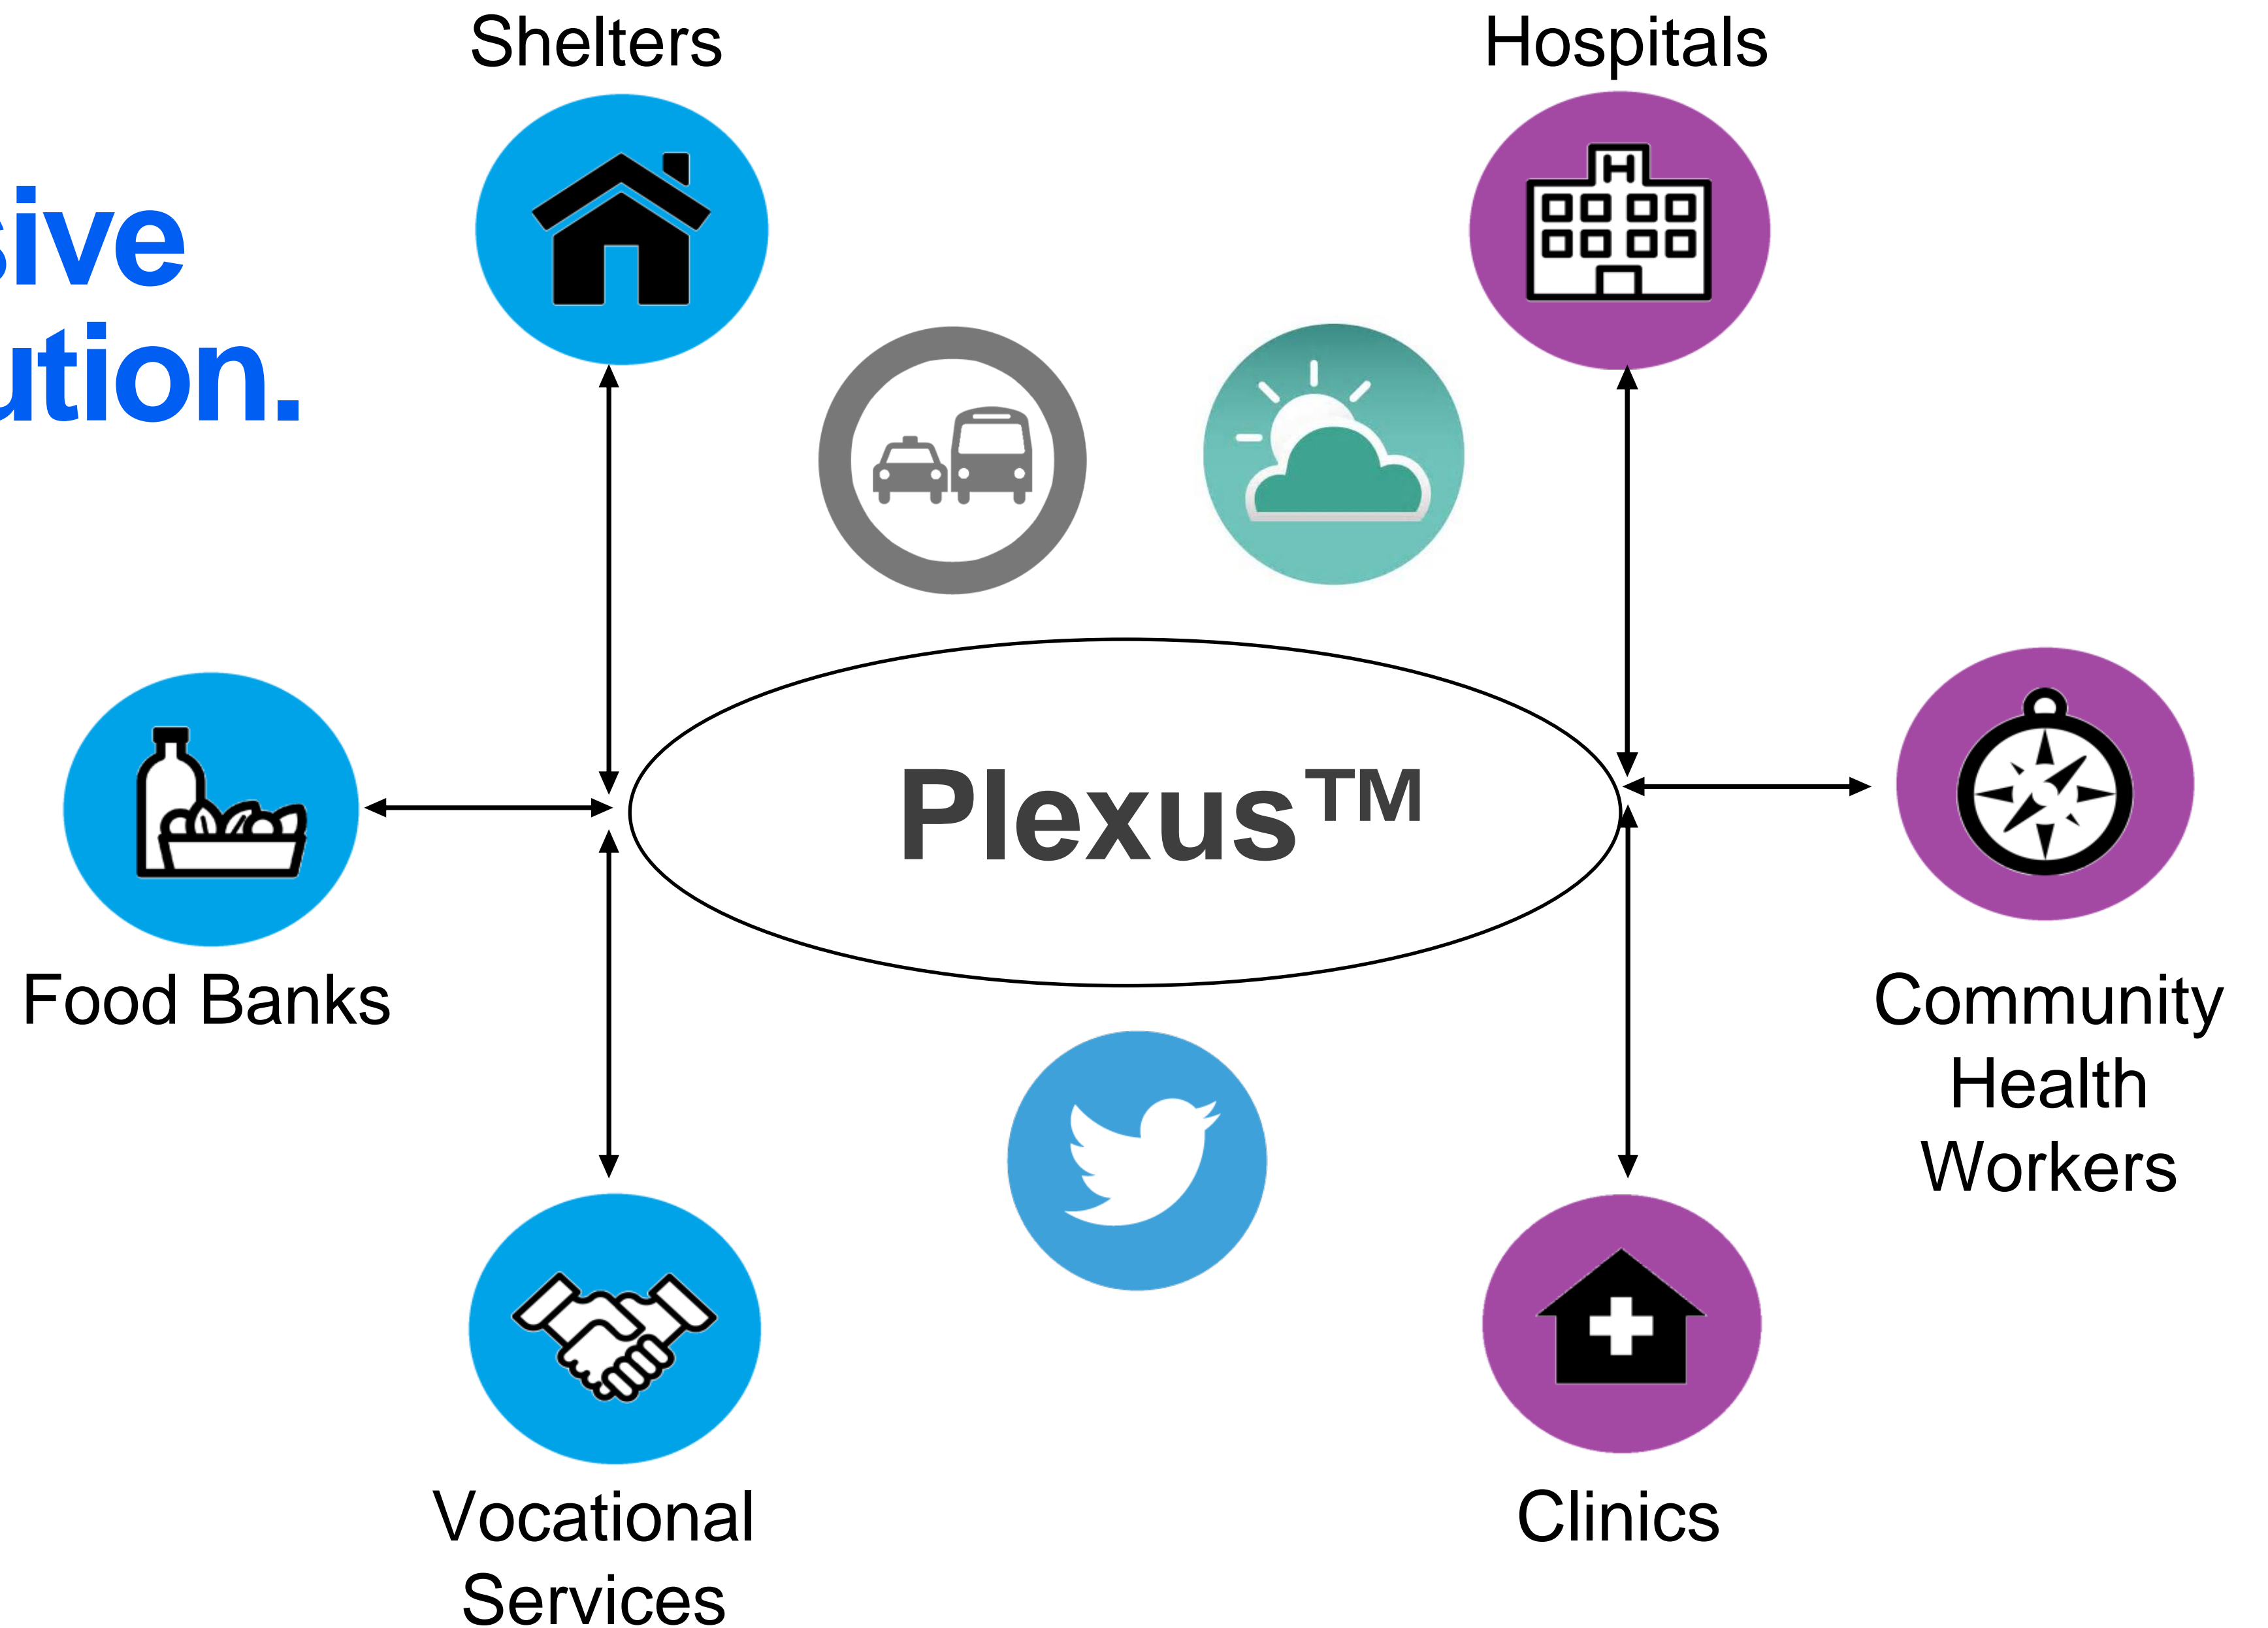

Synthesis, Prediction and Application

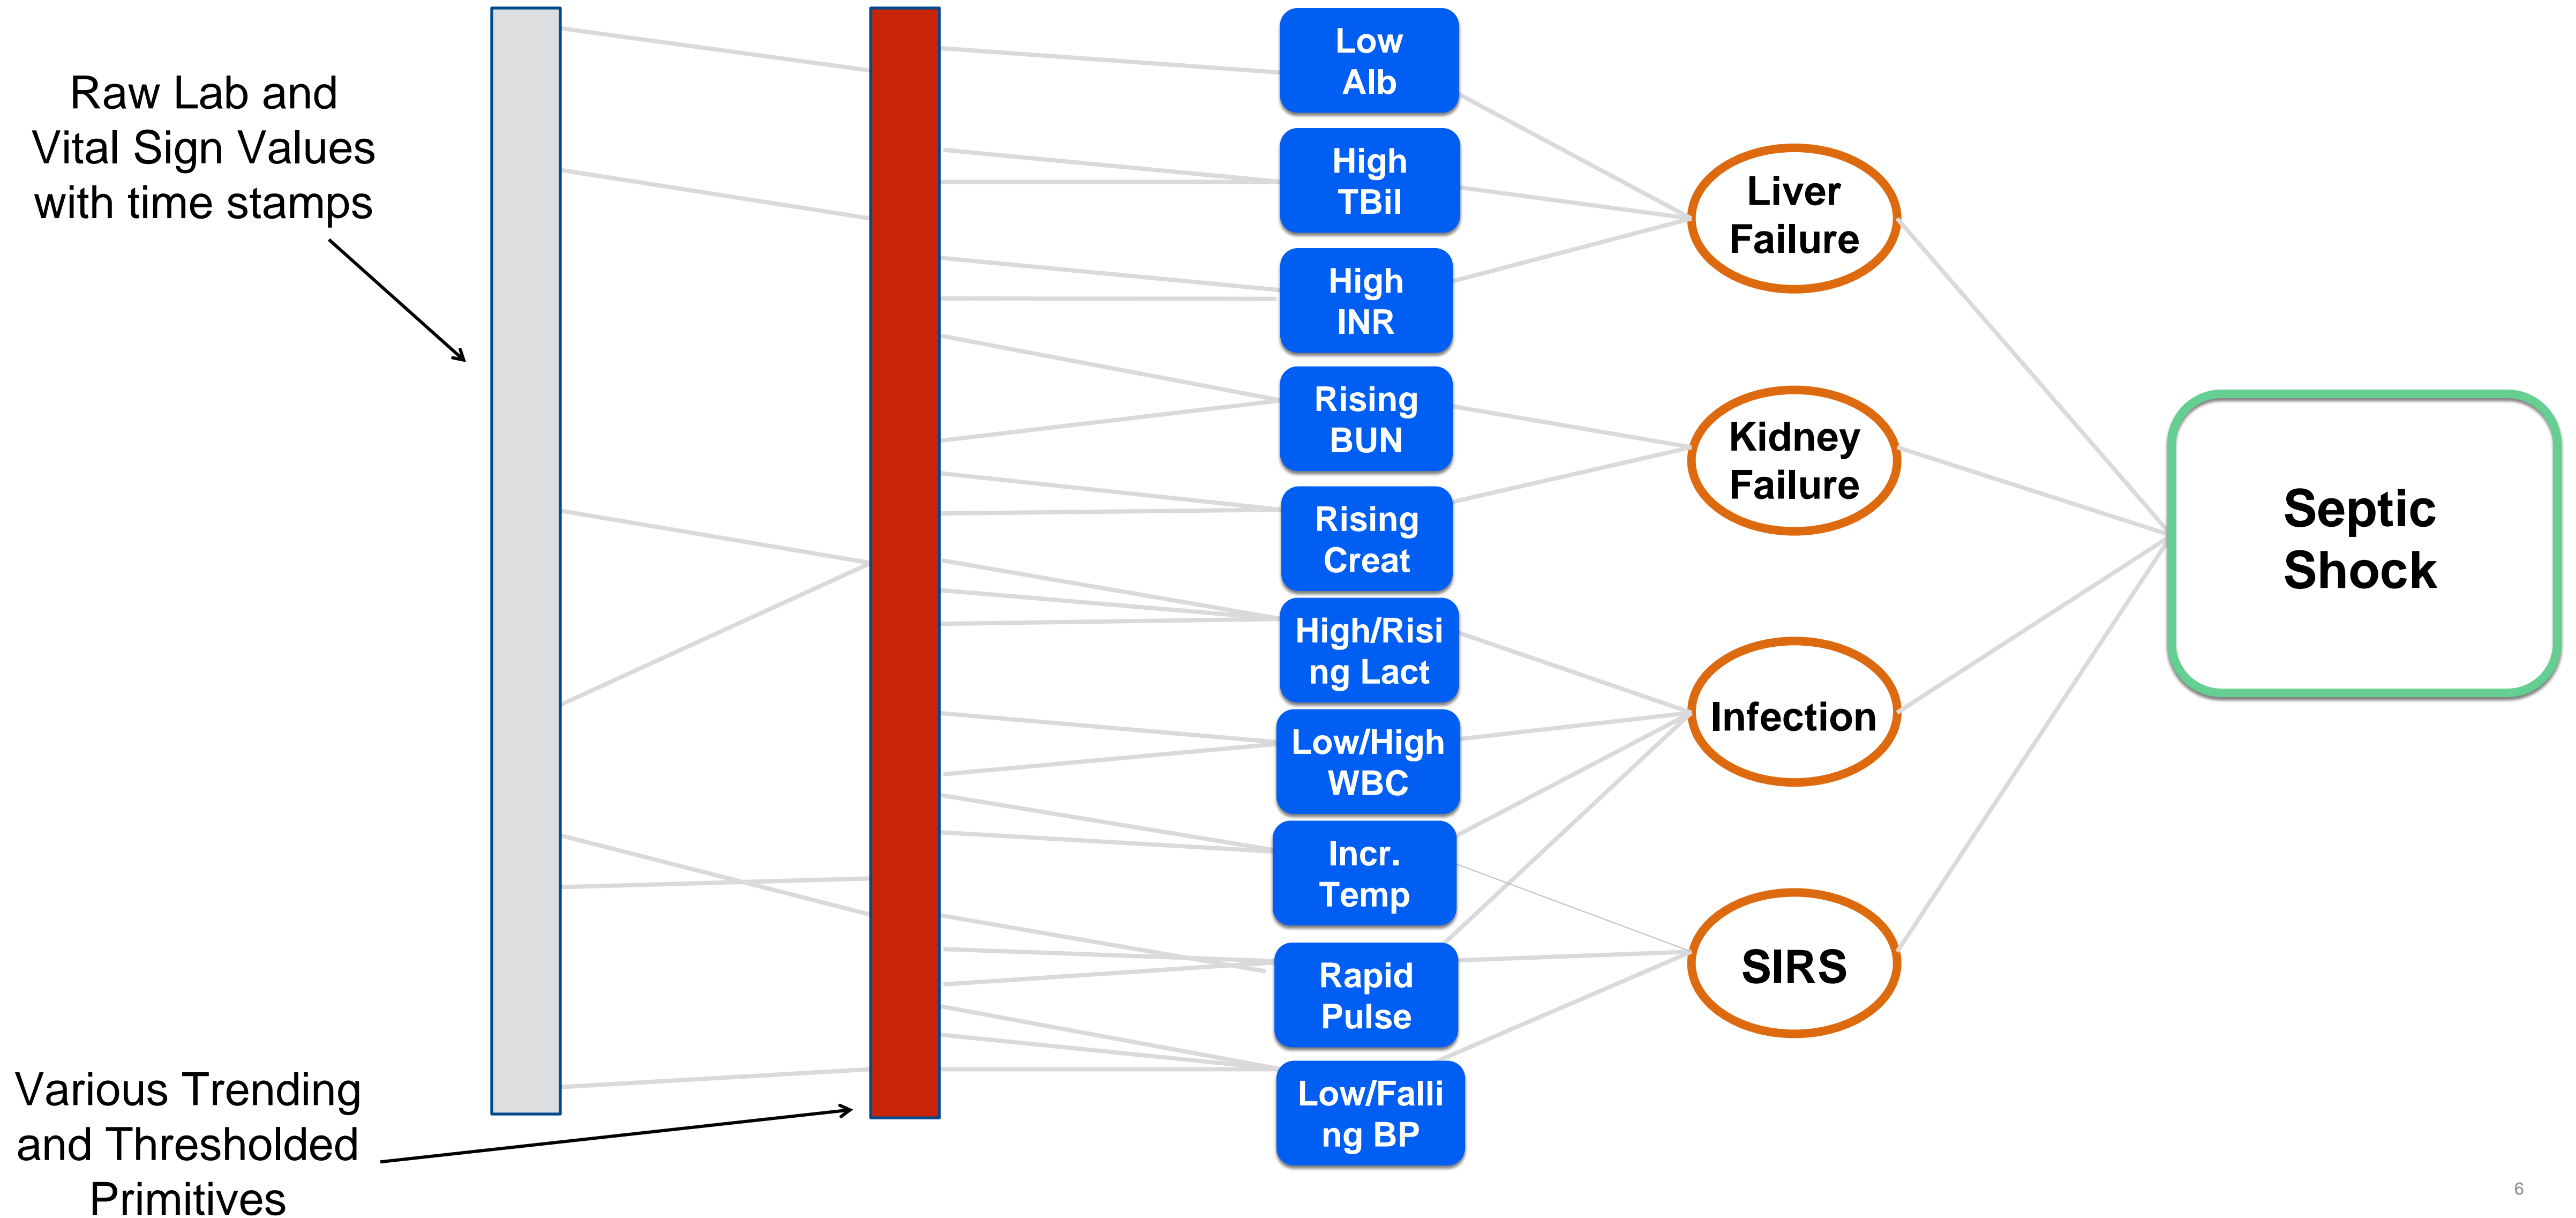

Pieces has assisted more than 200,000 clinical and resource allocation decisions.

Building a Comprehensive Network Solution.

Clinical Deep Learning

to help save a life.
